Magnetic Surface Thermometer Model: MST-52 Series

Introduction

American original imported PTC magnetic surface thermometer, designed based on thermodynamics, used for measuring surface temperature.

Due to the variety of customization, the picture is only for reference, please confirm the actual item with our sales. (If there is any change on specification, please take the latest version as standard.)

Features

- Original imported brand from PTC in the United States
- Installation using magnetic attraction
- Independent calibration

Temperature Range Table

Code	Range (°C)
312C	-20~120
313C	-20~250
314C	10~400
315C	-15~65
330C	-70~70

How to Order

MST-52 Series Magnetic surface thermometer									
Std.	Spec.	Code	Item	Code	Item	Code	Item	Code	Item
Custom	Temperature range	Please refer to the temperature range table and select the corresponding code.							
/B	Other requests	/A	Third party notarized documents						
		/B	Inspection report						
		/C	Tag
